THE ARTIST SERIES

Rodriguez Jr. Feathers & Bones Environment

Here at 36db we're very excited to share this debut Artist Series Environment by Rodriguez Jr. It comes in two stunning formats. The first is the 'Feathers & Bones' Environment. We took the title track from Rodriguez Jr's latest album and meticulously recreated it using only Ableton plugins. This release is filled to the brim with sounds, instruments sampled over 5 octaves, MIDI, drum samples and effects for you to immerse yourself in. We've even modelled some of the hardware processing Rodriguez Jr uses to get his tracks sounding so full, multi layered and textured.

The second format is the 'Feathers and Bones Deluxe Edition'. In this release, you not only get everything from the 'Feathers & Bones' Environment but also an exclusive, brand new and unreleased club banger called 'Entropy'. Rodriguez Jr. wrote 'Entropy' especially for this Environment. We've broken the track down into the classic 36db format giving you a whole host of additional sounds, samples, processing, and MIDI.

Finally, and to top off this debut Artist Series release, Rodriguez Jr has designed his very own Element - The Rodriguez Jr. Chord Maker.

Push 3 Total Control

Each of Rodriguez Jr's Environments and all Instrument & Effects Racks are now fully Push 3 compatible. You can simply drag any of these 36db Rodriguez Jr devices to your Push 3 and all macros and performance controls will work seamlessly. This includes any Max for Live devices.

Our main objective when designing these Environments was to enhance the hands-on experience. We have carefully mapped and programmed every instrument and effects rack for the ultimate user experience. Functionality and control are key in achieving efficient and creative results.

Ableton are in the process of making Instrument & Effects rack snapshots available for selection on the Push 3 Standalone. There are some that are not currently fully functioning, but updates are coming regularly to address certain issues that only affect Push 3 Standalone.

Rodriguez Jr. Instrument Racks

This selection of instruments from Rodriguez Jr is a beautiful collection of sounds that have been sampled from Olivier's personal studio. Each of the Sampler Instruments were sampled over 5 octaves. The behavior and performance response of these sounds were recreated in Ableton Live to give you the best playability.

Each Instrument Rack comes with 16 macros of control. This allows you to dial in the sounds you want and gives you 10 presets for each Instrument rack to get you started.
