HERNAN CATTANEO

Static Sky Environments

Unlock your music's full potential with the brand new Ableton Environment templates from the legendary Hernan Cattaneo co-created with 36db.

Designed for electronic music producers, this customised template adapts to your vibe, helping you nail your sound or explore fresh directions.

THE ARTIST SERIES

Hernan Cattaneo Static Sky Environments

The Hernan Cattaneo Static Sky Environments for Ableton Live™, feature five meticulously crafted templates designed to immerse you in the studio with Hernan and the 36db team. Hernan has been using the original arrangements in his DJ sets, and now you can explore these templates to create your own unique tracks. The release includes 4 custom Drum Racks™ with 64 custom samples, 22 drum patterns, 17 instruments, 6 effects racks, and over 240 custom presets. With additional features like a Master Channel Strip and custom vocal samples, these Environment templates give you endless ways to create new music.

- 9 x EFX Samples.
- 2 x Custom Vocal Samples.
- 1 x Custom Drum Channel Strips with 5 Presets.
- 1 x Master Channel Strip.

Hernan Cattaneo Instrument Racks

This selection of instruments in the Hernan Cattaneo Environments is a beautiful collection of sounds. Each of the Sampler Instruments were sampled over 5 octaves. The behavior and performance response of these sounds were recreated in Ableton Live to give you the best playability.

Each Instrument Rack comes with 16 macros of control. This allows you to dial in the sounds you want and gives you 10 presets for each Instrument rack to get you started.

Drum & Percussion Racks

Each of Hernan Cattaneo's Drum Racks™ features handpicked samples from his personal collection, blending exotic Latin American percussion with powerful electronic drums and sound effects.

Additionally, each Drum Rack™ includes a custom Hernan Cattaneo Drums Bus Channel strip, designed to enhance the energy and presence of your drums, offering versatile options for positioning them in your mix.

Instruments & Effects

36db and Hernan Cattaneo have curated an exceptional collection of synths, instruments, and effect racks for you to explore. Among these are uniquely sampled instruments from Hernan's favourite hardware synths, frequently used in his productions. A standout feature is the Hernan Cattaneo MS20 LFO Effects Rack, a re-creation of the legendary Korg MS20, renowned for its ability to produce wild LFO effects that can infuse any track with sci-fi soundscapes. Additionally, you'll find authentic MS20 LFO EFX samples, reimagined as an instrument using Ableton's Wavetable Synth.

Hernan Cattaneo Effects Racks

We've meticulously recreated a selection of Hernan's favourite effects, the ones he relies on in his own productions. This collection features a wide variety of Effects Racks, each offering extensive controls to help you craft the exact sound you're after. From reverbs and delays to modulation effects and more, these tools are designed to elevate your productions. Additionally, each Effects Rack comes with 10 presets to jumpstart your creative process.

Hernan and 36db have also crafted 6 return channel Effects Racks, offering a diverse range of effects, including some wild glitchy textures to add depth and dimension to your sounds.

As with all our 36db Instruments and Effects Racks, these are provided as individual racks, allowing you to mix and match them to suit your own productions. By combining these devices, you can achieve limitless results, showcasing the true modular power of Ableton Live™.

Tips and Tricks

As you browse through the presets, you'll discover a wide range of new sounds and effects that can instantly transform the instrument or effect. You can also experiment with the randomize button at the top right of the rack, which can yield impressive results or provide a fresh starting point for creating your own custom preset. This snapshot will be saved with the rack in your Environment or within the Rack preset when you save it to your browser.

Minimum requirements to use our 36db Environments

Ableton Live 11.3.4 Suite™ or newer (Mac or PC). You will also need to have all additional library content that comes with Ableton Live 11 Suite™ version installed.

Mac or PC Intel Xeon & i7 or higher Core Processors with 16GB of memory. Mac OS Mojave or higher, Windows 7 64 or higher for PC.

Our design makes it easy for you to mix and match all the sounds and effects racks that make up our Environments. This enables you to add them to your own productions or use parts from one Environment in another Environment.

If you have any issues with our products, please contact support@36db.live and we will do our utmost to resolve any situation.

All the best,

36db.

36db User Agreement

By purchasing this Product (subject to the terms of the 36db User Terms and Conditions Agreement), you are granted a non-exclusive, non-transferrable license to use the Product(s) you downloaded from 36db solely for use for or within new recordings or derivative works created by you PROVIDED ALWAYS that you use the Product(s) only within your own newly-created sound recording(s) in a manner that renders the Product substantially dissimilar to the original, assembled sound of the Product in each case.

Products must not be shared with or given or transferred to any third party or uploaded to any file-sharing site or offered for resale or public transmission unless mixed into your own original music productions. Products may not be used in or in relation to any competitive products that are sold or relicensed to any third parties. The number of individual sounds provided to you within your purchased Product and the size of your downloaded file is based upon the highest-quality format version of your Product. Except as expressly permitted herein, to the fullest extent of applicable law you may not copy, modify, distribute, sell or lease any Product.

By opening this pack it is assumed you understand that other purchasers of this pack will have access to the same data and musical materials. 36db will not be held responsible in any manner for any copyright or other music-based disputes or any YouTube/Soundcloud/other digital or web-based ID conflicts that may arise from more than one user creating new musical works containing the same sample(s), midi or other data supplied in this release.

No new musical work created using this product's contents may be used as the basis of any copyright or monetisation claim against 36db Ltd, our online media channels, this Product's intellectual and technical contents or its promotional audio clips, videos or other media. If any such claim arises, you (and/or your distributor) will be asked to end the claim on which ever platform(s) it has been made. We require any such claims to be addressed and removed within a 30-day period.

The Product(s) are licensed to you only for use within your original musical compositions and productions. All copying, lending, duplicating, re-selling or trading of the Product(s) is strictly prohibited, save as used for or incorporated into your original created works. Only you as the original purchaser of the Product(s) has the right to embody and reproduce the Product(s) within your music compositions and productions. For the avoidance of doubt, no ownership of copyright is transferred by 36db to you.
