36db Elements Content Information

Welcome to 36db and thank you for purchasing the **36db Lo-Fi Wobble Box**. We're sure you'll have fun exploring this 36db Element and seeing where your creativity takes you!

Creating distinctive and unique sounds can make all the difference. Many great artists spend a great deal of time trying to find that perfect balance of tone and texture for their music. **Tame Impala, Boards of Canada, Caribou** and **Bicep** tracks rely heavily on such allusive tones, and their warm, Lo-Fi textures and harmonically rich sounds grace many of their amazing tracks.

The idea behind the **36db Lo-Fi Wobble Box** was to try and capture the flavour of some of our favorite guitar pedals: Deco, Instant Lo-Fi Junkie and Generation Loss. We wanted to create something extra special that could capture the warmth, wobble and magic of these iconic sounds and textures.

Welcome to the **36db Lo-Fi Wobble Box**!

36db Modular Wave B Instrument

This instrument was sampled from our modular synth rig. We sampled it over 5 octaves on every note. It's warm and present-sounding, with some slight pitching in the waveform to give it an absorbing feel.

It comes with 10 preset sounds to start your ideas, providing a varied selection of tone styles to get your ideas flowing.

Getting the right texture on a sound can be challenging. Using the right blend of effects and gain staging everything to interact with each other can take time, and can also be tricky to right.

We spent a lot of time finding the right combination of effects for this Element. We worked on a Max for Live customised chorus effect and changed the parameter amounts, allowing it to go from warbled, tape-style sounds to chorus, flanger, slap delays and beyond.

We then used Ableton's Echo effect to add tape noise, wow and flutter, as well as some reverb.

There are 20 preset examples to try out, all of which are equally varied and compelling.

Minimum requirements to use our 36db Environments

Ableton Live 11 Suite™ or newer (Mac or PC). You will also need to have all additional library content that comes with Ableton Live Suite™ version installed.

Mac or PC Intel Xeon & i5 or higher Core Processors with 8GB of memory. Mac OS High Sierra or higher, Windows 7 64 or higher for PC.

Our design makes it easy for you to mix and match all the sounds and effects racks that we create at 36db. This enables you to add them to your own productions or use them individually with other Environments.

If you have any issues with our products, please contact support@36db.live and we will do our utmost to resolve the situation.

All the best,
