36db Transient Shaper Saturator

Please follow the install guide also included with your download.

Introduction

Welcome to 36db and thank you for downloading our free Max for Live 36db Transient Shaper Saturator for Live 12.2.

The Transient Shaper Saturator is a simple, powerful effect designed to add **energy and punch** to your music. On drums, it brings impact and clarity, helping your sounds sit perfectly in the mix.

There are three main controls to shape your sound. **Attack** adds punch or smooths transients to blend elements more naturally. **Sustain** brings energy and movement, extend the tails for presence or tighten them for a gated feel.

The third control, **Drive**, adds warmth and character through selectable saturation types. The left menu lets you choose your flavour, while the right menu switches between soft and hard clipping for output control.

Finally, use the **Input** and **Output** faders to balance your signal throughout the chain.
