

MELODY SAUCE 2

MASCHINE 2 SET UP

In Maschine 2, simply load Melody Sauce 2 as an instrument on its own track by clicking the + button. Then selecting Evabeat > Melody Sauce from the Instruments menu. Choose VST or AU.

Then simply click the Open button when Melody Sauce appears as an instrument.

The authorisation window will appear. Enter your license/serial key to authorise Melody Sauce 2 (this requires an internet connection). See Authorisation Guide for more details.

Make sure Melody Sauce 2 is in Instr mode and that your project is playing. We recommend looping playback for at least 8 bars so you can hear the whole melody. Note: A fast, long melody would be 8 bars long and a long, slow melody would be 16 bars long.

You are now ready to start generating melodies!
