

Lushie Deluxe

by ijo audio

Hello and welcome to your new device, **Lushie Deluxe!**

Lushie Deluxe is a microshifter Max for Live plugin for Ableton Live. It was designed to add lushness to a mono signal by subtly detuning extra voices, panning them, and adding slight delay variations. **Lushie** is a chorus, a widener, a thickener and a microshifter. **Lushie** makes your sounds huge.

The idea of Lushie Deluxe is that every spot is a sweet spot. The controls have been set in such a way that things sound good wherever the knobs are set. You have control over:

- wet/dry mix (setting just the right amount of stereo lushness)
- focus (choose the frequency at which the effect begins, so that low bass frequencies aren't processed)
- detune (the maximum amount of detune is less than fifty cents, again, ensuring things always sound nice)
- delay time (once again, things don't get out of hand here, just enough control to have things tight or a bit loose)

Plus three algorithm modes to choose from:

- I. The subtlest of the three. Some of the highs are rolled off, the detune is less intense and the delay times are shorter
- II. Sweet spot in the middle. More detune, more delay, a bit more highs. Still tasteful.

III. The most presence of the three modes. The most delay and detune. Still sounds sweet.

The idea of **Lushie Deluxe** is to have a sweet spot, no matter what. Keep it sweet. **Lushie Deluxe.**

Stereo lushness. Microshifter.

The image shows a dark-themed software interface for 'Lushie Deluxe' against a background of orange and blue bokeh. At the top, the text 'Stereo lushness. Microshifter.' is written in a large, white, sans-serif font. Below this, the software's name 'Lushie Deluxe' is displayed in a white serif font. The interface features four main control sections: 'Mix' with a knob between 'dry' and 'wet'; 'Focus' with a knob between '20hz' and '20khz'; 'Detune' with a knob between 'min' and 'max'; and 'Delay' with a knob between 'tight' and 'loose'. In the center, there are three rectangular buttons labeled I, II, and III. A small icon of three wavy lines is in the top right corner of the interface. At the bottom, the text 'Free download.' is written in a large, white, sans-serif font.
